Motivators

Just Curious: Whenever the Slicer spends at least 10 minutes attempting to breach a security system (Computerized, Electronic or Physical) they gain 2 Motivation.

My Best Friend is a Droid: Whenever the Slicer spends at least 10 minutes talking to a Droid, even if there are other biological creatures around, they gain 2 Motivation.

Base Abilities

Sensor Reflection: The Slicer can perform an Active Sensor Scan in a way that bounces it off of nearby planetary features or stellar phenomenon, obscuring its origin point and allowing the party to continue to maintain Shadow Protocol. This ability costs 1 Motivation per use and there must be a stellar object within 1,000 kilometers (asteroid, ship debris, planet, nebula, etc) for the ship version, and a planetary feature within 10 kilometers (mountain, lake, sea, enormous skyscraper) for the planetary version.

Tools of the Trade: The Slicer gains 1 Proxy, 1 Proxy Ability and 1 Slicer Software.
