Base Abilities

Sense Emotions: As an Action, the Telepath can spend 1 Motivation to sense the surface emotions of another creature. This requires a Force Rating + Telepathy roll against the target's Confidence + Emotional Control.

Charm Beast: As an Action, the Telepath can spend 2 Motivation to attempt to befriend a wild creature. They must roll Force Rating + Mind Control against the target's Confidence + Motivation + Disposition. On a success, the creature moves 2 levels up the Disposition track towards friendliness. The Telepath can perform this action repeatedly until they fail, in which case the animal's Disposition worsens.
